ANNUAL REPORT Special Double Issue 2012-2013

## **LETTER FROM THE EXECUTIVE DIRECTOR & BOARD CHAIR**

# Dear Friends,

A year ago, the 2012 elections—and the impact of the immigrant vote—breathed new life into the campaign for immigration reform. The momentum coming out of the election led to the June 2013 passage of a bipartisan comprehensive immigration bill in the Senate that, while far from perfect, provided a path to citizenship for the undocumented.

As of this writing, we are still waiting for a vote in the House of Representatives. We are still waiting for a bill to cross the President's desk for his signature. We know that immigration reform can happen: business, faith and labor leaders want immigration reform, public sentiment is overwhelmingly for it, and immigrant communities are calling out for reform, heartbroken by the damage caused by a system that deports 1,100 hard-working immigrants a day—tearing families apart and causing untold devastation in communities across the country. It's a matter not of if but of when.

So we are not deterred. And we'll continue to fight for—and win—reforms at many levels: ensuring that immigrants are included in health reform, that students still learning English are provided the opportunity to succeed, that new Americans are engaged voters, that immigrant communities build their capacity and leadership and have the resources and skills to provide the services their communities need. And we'll continue to ensure that as many New Yorkers as possible obtain work permits and drivers' licenses and are protected from deportation under Deferred Action for Childhood Arrivals—the most positive immigration policy change we've seen in a long time.

This report gives you a quick snapshot of some of what happened in 2012 and 2013. We also had a change in leadership, and one reason we're so poised to take on the world to achieve our goals is because Chung-Wha Hong had provided such phenomenal leadership in her years as executive director. We also want to take a moment to acknowledge the contributions of someone else who did so much to strengthen the NYIC, and all behind the scenes, with little public recognition: our beloved Jackie Wong, our director of administration, who passed away this year after a brief illness.

And thanks to all of you—our members, our supporters, our allies—for your commitment to building a better world. Together, we are the heart and soul of the NYIC, and we couldn't wish for better partners than you!

With profound gratitude,

Steven Choi Executive Director Guillermo Chacón Board Chair

RTHERN BORDERS COALITION
Joining with our partners in fellow border states Michigan and Washington State, the NYIC is a founding member of the Northern Borders Coalition, to address civil and human rights violations against immigrants at the northern border and to share best practices with our allies down south. The Northern Borders Coalition successfully fights

for a provision in the bipartisan Senate immigration reform bill that imposes limitations on Customs and Border Protection's warrantless powers within 100 miles of the border.

On Immigration, Rhetoric on Need to 'Secure the Border' Doesn't Match Reality

By Jeremy White on January 16, 2012

'We're talking about people who have been living here, have started families, have been part of the community for more than a decade,' said Jacqueline Esposito, director of advocacy for the New York Immigration Coalition. "So that's the crisis...."

Team up with the Fund for Public Advocacy and Korean American Community Foundation to provide initial seed funding; bring together a group of dynamic young DREAMers selected through a highly competitive application process; provide them with partial scholarships to CUNY; place them in internships at our member groups across the city; and engage them in a leadership development program. See them thrive and throw themselves

engage them in a leadership development wholeheartedly into the program, even while keeping up their studies. Marvel at their growth and the courage they display—NYIC DREAM fellows have testified before the City Council and in before the City Council and in state hearings, spoken at major rallies, and one was among a group of seven undocumented immigrants and family members to meet with President Obama and Vice President Biden in the Oval Office. In two years, the NYIC has hosted 24 DREAM fellows who have done us proud.

The NYIC takes Albany by storm, bringing a record 1,300 individuals representing 94 organizations to the capital to make the case for state policy agenda, which includes funding for immigrant services and state-level DREAM legislation to expand educational opportunities for all students regardless of immigration status. While state DREAM garners significant support among legislators, other public officials, and a ity of sectors, it turns out to be a multi-year campaign....To be continued!

# IMMIGRANTS, ADVOCACY GROUP PLAN RALLY IN ALBANY

March 14, 2012
"The New York Immigration Coalition backs Gov. Andrew Cuomo's proposal to establish a new state office dedicated to handling issues facing immigrants. ...
The organization [New York Immigration Coalition] also supports legislation that would ensure all students, regardless of immigration status, have access to public and private tuition assistance in New York. The group says there are more than 4 million immigrants in New York state."

Two hundred immigrant community leaders and members gather at City Hall with city officials to promote (and ultimately secure) our city policy and budget priorities, among them funding for ESL, adult literacy, and immigration legal services. A lunch briefing following the rally provides an opportunity for lawmakers and administration officials to bear our vision of an and administration officials to hear our vision of an immigrant-friendly city.

The NYIC leads a monitoring project to assess the Obama administration's implementation of its prosecutorial discretion policy (which would spare certain people from deportation who have strong community ties and pose no public safety threat). In the course of this project, we launch campaigns in support of individuals who meet the criteria for prosecutorial discretion but were not granted it. Sara Martinez is one discretion but were not granted it. Sara Martinez is one such individual; she clearly meets the guidelines, but immigration and Customs Enforcement repeatedly deny her request. After the NYIC wages a multi-pronged campaign in which we urge the head of ICE, John Morton, to personally review the case; place multiple news stories, op-eds, and letters to the editor in such outlets as the New York Times and Daily News and on Univision; and a personal plea from Congresswoman Nydia Velázquez, the agency finally reverses its earlier. Nydia Velázquez, the agency finally reverses its earlier decisions and grants her the right to stay.

Not our usual stomping grounds! Invited by NASDAQ to ring the closing bell, we dedicate the ceremony to DREAMers, share the stage with Jose Antonio Vargas and other DREAMers, and get to show an NYIC slideshow on NASDAQ's seven-story screen in the middle of Times Square—which half-a-million people pass through daily. The NYIC was humbled at the opportunity to be featured on the NASDAQ Tower and shine a light on the contributions of DREAMers and other immigrants who call this country home.

## Immigrant Groups, Alongside Bill de Blasio, Push DREAM Act with Fellowship

March 9, 2012 The organizations behind the fellowship—the NYIC, the Fund for Public Advocacy, the Korean American Community Foundation, and the office of Public Advocate Bill de Blasio—used the announcement of the fellowship as an opportunity to promote state and federal legislation that would help undocumented students access scholarships and go to college.

When Hurricane Sandy causes untold devastation across the region, the NYIC becomes a clearinghouse of information on relief and recovery resources for immigrant communities. We-sponsor with the Mayor's Office of Immigrant Affairs a forum attended by 85 immigrant-serving organizations and representa-tives from FEMA, HRA, and MOIA, leading MOIA to launch a needs-assessment program for immigrant community needs in the wake of Sandy. Here in New York City, our campaign holds a rally and a march across the Brooklyn Bridge—5,000 people strong—with echo events by campaign partners in other areas across the state, from Long Island to Buffalo. By November, with a House bill introduced that mirrors the Senate bill, we continue the pressure, holding an eleven-mile march for the 11 million undocumented, followed by a three-day fast and vigil outside the office of Congressman Grimm, urging him to sign on to the House bill and strengthen bipartisan support for reform. While at the writing of this report we have still not crossed the finish line with an immigration reform bill signed into law by the President, we can say that the movement is stronger than ever and the public sentiment is decisively in favor of reform, including a path to citizenship for the undocumented. Some campaigns take a while, but we are undeterred, we are determined, and we will keep at it until we've made the progress we have long been seeking.

The NYIC's Immigrants Vote! campaign, in which a dozen member groups participate, takes off in March with a debate on immigrant issues among all the candidates for public advocate. We ensure that immigrant-focused questions are included in multiple candidate forums and candidate questionnaires across the city and register, educate, and mobilize immigrant voters, who play a major role in local races. After the election, the NYIC is invited to present our city agenda at the Talking Transition Tent, and we bring together diverse member groups and allies for substantive discussion, colorful and informative slide shows, brilliant performances by Malian cora player Yacouba Sissoko's ensemble and Afro-Cuban group the Cimarron Project; and a ceremonial dance by indigenous Maxican group Cetilztli Naubcampa Quetzalcoatl Mexican group Cetilztli Nauhcampa Quetzalcoatl.

As the state-designated trainer on Board of Immigration Appeals Accreditation and Recognition, the NYIC, with support from the Department of State's Office for New Americans, develops an intensive 40-hour training to help non-profit groups qualify for BIA recognition and accreditation, expanding the corps of groups who are authorized and qualified to provide immigration legal assistance.

These intensive week-long trainings, which include site visits to immigration court and mock trials, along with a substantive immigration law curriculum, take place in New York City, Albany, and Syracuse. In addition, the NYIC's regular training calendar reaches thousands of legal providers each year, providing Continuing Legal Education credit for providers. In Selected Affords, the NYIC also expresses a working group, in partnership with member groups and allies, that brings together providers, community groups, and law enforcement agencies to develop strategies for combatting immigration fraud.
